

Where your AI organization really stands — in 2 to 3 weeks.

A multidimensional architectural diagnosis of your operating model — showing where your organization stands today and the biggest blockers to sustainable scaling.

PROBLEM

“We have a lot of AI activity, but no architecture. We know we won't scale the way we're set up today — but we can't clearly say what's actually holding us back.”

Generic maturity tools measure activity — use cases, tools, investments. They miss exactly the structural imbalances where scaling actually breaks down.

AUDIENCE

FOR YOU, IF

- You have seriously invested in AI over the past 18–36 months
- A concrete decision is on the table: scaling, reorganization, investment
- You have a C-level sponsor with a clear mandate
- Mid-market or enterprise with 250+ employees
- You want an honest assessment — not a feel-good report

NOT FOR YOU, IF

- You are at the very beginning of your AI journey (too early) — then HandsOn AI Strategy Engagement
- You are looking for a technical ML/MLOps audit
- You want a certification or compliance audit
- You cannot provide the required stakeholders & resources

WHAT WE DO

01

We diagnose architecture, not activity.

Six operating model domains, independently assessed on a 4-stage maturity continuum.

02

We make dangerous imbalances visible.

Recurring patterns such as Compliance Theater, Pilot Graveyard, or Strategy-without-Skeleton — before they turn into a crisis.

03

We deliver a design agenda, not a recommendation paper.

8–10 prioritized design decisions for the next 12 months — with owner, precondition, and risk of non-decision.

PROCESS · 2-3 WEEKS

0

MOBILIZATION

3–5 days lead time

Sponsor call · Self-assessment · Document pull

1

DISCOVERY

Week 1

Kick-off · 4 structured interviews · Artifact review

2

SYNTHESIS

Week 2

Maturity scoring · Pattern detection · Design agenda

3

EXECUTIVE READOUT

Week 2/3

2-hour workshop · Final documentation · Closeout call

DELIVERABLES

01

MULTIDIMENSIONAL MATURITY PROFILE

One-page visual with all 6 domain scores and HAI level.

02

EXECUTIVE SUMMARY DOCUMENT

8–10 pages, board-ready, free of consultant speak.

03

EXECUTIVE READOUT DECK

20–25 slides, editable for your internal reuse.

04

PRIORITIZED DESIGN AGENDA

8–10 design decisions, jointly prioritized by your leadership team.

+ 2-hour executive workshop with your C-level.

2-3 WEEKS

ONE SPONSOR + 4 INTERVIEWS

An honest assessment as a basis for action.
